Subject: RE: Peter Wright visit to R8 this week and Superfund meeting
Attachments: SilverBowButteBackgroundPaper20180830_MT_Edits-CLEAN.docx; AnacondaBackgroundPaper20180830_MT_Edits-CLEAN.docx

Here are the attachments. I don't have one for CO Smelter or BPMD but suggest you use a similar format for those as above. Thanks.

Sandy

Subject: Peter Wright visit to R8 this week and Superfund meeting

All

I have not yet heard when this meeting will occur but am assuming Wed or Thurs. Betsy and I have developed an outline below of topics to cover and have put names next to some of them where we need your help in developing 1 pagers that we can share with Mr. Wright and also walk through with him during the meeting. Please get back to Betsy/me by COB tomorrow with your draft papers. For the superfund sites listed I have attached the one-pagers we used for Admin Wheeler last fall. Please review and update with any new information. We will plan to use these for those sites. Also please weigh in on topics 3 and 5 if you have a part in them with your thoughts and we will incorporate for those topics. At this point I am not sure about participants but hope Doug is comfortable with folks attending. Feel free to stop by tomorrow if you have questions or want to brainstorm ideas/content. Thanks!

Topics

- 1) OU Metrics (Fran Costanzi – if you have the latest version of the spreadsheet please send and also the definitions we are using in the bowling chart and FY19-20 targets)
- 2) Risk communication in FYRs (Fran Costanzi – If you can give us several bullets on how this could work Betsy, Doug and I could work from that)
- 3) Mining work in general (NPL sites, Mixed ownership sites) (Ryan B is revising the maps for mining sites and NPL sites with updated 2019 planning info)

- 4) NPL Sites
 - a. Butte
 - b. Anaconda
 - c. BPMD
 - d. CO Smelter
- 5) Other Mining Site work – focusing on big picture challenges, scope issues with this work including how we use remedial/removal expertise to tackle these issues (Joy Jenkins)
 - a. Capt Jack
 - b. Nelson Tunnel
 - c. Cal Gulch, Clear Creek, Summitville, Upper 10 Mile, Carpenter Snow Creek, Basin Mining
- 6) Brownfields Fact Sheet on our regional work with data/outcomes maybe historic summary and current FY19? (Danny Heffernan)
